

ADDENDUM 2

July 13, 2021

RFP TDD 36-21

Development of a Comprehensive Conservation and Management Plan (CCMP) for the Choctawhatchee Bay Estuary

This addendum is being issued to clarify some requirements of the RFP and extend the proposal opening date.

Questions and Responses:

1. In response to Question #12 concerning how cost proposals should be developed by respondents, Addendums 1 and 2 to RFP TDD 36-21 describe use of a COST ANALYSIS FORM for documenting cost elements articulated within respondent proposals. The intent for mention of this document was informational only, meant to inform prospective respondents of specific information which Okaloosa County would be required to document during the proposal review process in consideration of the use of federal funds. The subject form will be utilized by Okaloosa County to record cost information, supporting determinations of whether proposed project costs would be fair, necessary and reasonable, and allocable to the project. The specific cost element details which are illustrated on the COST ANALYSIS FORM should be included within respondents' cost proposals, to facilitate review and analysis by Okaloosa County.

The proposal opening date had been extended to July 22, 2021 at 3:00 P.M. CST.
