QUALIFICATION REQUIREMENTS

PROPOSAL #: RFQ AP 24-18

PROPOSAL ITEM: Aviation Engineering, Design, Environmental and Bidding Services to Expand the West Apron at the Destin-Fort Walton Beach Airport (VPS)

BACKGROUND

The Okaloosa County Board of County Commissioners is soliciting Statements of Qualifications from interested firms detailing past performance, technical, and financial qualifications to expand the capacity of the West Apron at the Destin – Ft Walton Beach Airport (VPS).

Okaloosa County plans to retain professional architect/engineer (A/E) services in compliance with section 287.055, Florida Statutes, known as the Consultants' Competitive Negotiations Act ("CCNA") to perform site analysis, project design, determination of environmental actions required, and grant and bidding services for expanding the west apron of the airport operating area (AOA) at VPS. The 2018 Terminal Area Study and Terminal Layout Master Plan update will address concepts for the apron expansion size, layout, and dimensions within the current lease hold on Eglin Air Force Base (AFB). The selected AE firm will take conceptual plans and work with Airport staff and the FAA to finalize apron dimensions and develop detailed site development plans including airfield pavement structural design, geometrics, markings, lighting requirements, and other aircraft support infrastructure required (tie-downs, ground points, electrical or other infrastructure for ground power units, etc.). With record growth in recent years, the passenger increases of the past two years will be considered in analysis taking into account conservative projections and accounting for existing air carriers and opportunities for added airlines to integrate easily into the system. The aircraft gates at VPS are fully occupied and additional apron space to park up to three (3) additional main line aircraft is required to increase the maximum aircraft on ground at various times and also allow swing space for aircraft that are out of service awaiting longer term maintenance or repairs. Additional apron space could be used to accommodate ground loading operations if required and should account for vehicular driving lanes and space for ground equipment to be safely stored between aprons spots and taxi lanes.

SCOPE OF WORK

The scope of professional services includes, but may not be limited to, the following:

1. Develop a detailed scope, design, preferred alternatives, cost effectiveness analysis and 100% probable construction cost estimate for the West Apron Expansion project within the requirements of federal grant funds and the Airport's budget. The project will enlarge the West Apron at VPS in order to create additional ground loading apron spaces or overflow rest overnight (RON) space for aircraft to base overnight for early flights when all of the existing spaces with jet bridges are full or otherwise under exclusive lease by another airline. The design will incorporate design standards, safety, and operational needs as outlined in FAA Advisory Circulars and identified by airport staff and airline tenants. It will also address physical components of environmental mitigation actions that need to be incorporated during construction.
2. Analyze previous environmental documentation including previous environmental baseline surveys, Environmental Assessments, Findings of No Significant Impact (FONSI), Categorical Exclusions (CATEX), and other related stormwater and environmental impacts by the airport/existing apron. Based on analysis and coordination with the FAA, Eglin AFB, EPA, FDEP and Airport staff the consultant should help advise what environmental action(s) are required and determine the timing for such actions. The consultant will also assist in developing forms, letters, and reports to satisfy reporting, approval, and mitigation actions if required. Environmental action scope of work should be incorporated into construction phasing depending on the timeline of the determined action.

3. Develop supporting bid documents including final design documents and bid schedule to include front end documents, technical specifications and bid set of final plans. Bid services should also include analysis and comparison of the bids received in order to provide an engineer's recommendation of the most responsible and responsive low bidder. Consultant(s) selected to assist the County develop the bid documents are strictly prohibited from competing for any work included in such bid.
4. Coordination with internal and external agencies including Eglin AFB, the TSA, Airline Representatives, EPA, FDEP, and the FAA among others during the design and bid phases.
5. Grant services to include but not limited to the preparation of the FAA application for the design and pre-application for the follow-on construction phase(s) of the project.

Statements of Qualifications shall be limited to 15-single sided pages (not including mandatory forms) and MUST be submitted in the format described below:

- a. Letter of Interest. A Letter of Interest must be submitted, including summary information on the firm's history, offices and personnel that will support the design, resources to accomplish the work, and summary of experience/projects specifically related to airport pavement designs at commercial service terminals.
- b. Organizational Chart and Description of key personnel and their assigned roles, as well as their past experience with airport projects, specifically commercial service apron new construction or expansion projects.
 - i. The firm shall provide information on their understanding of the project requirements.

Information to be included shall include at a minimum:

- Experience of the project team in working on commercial service airfield pavement
 - Lessons learned from previous apron projects and any examples of challenges that were overcome
 - Working knowledge of FAA, Airlines, and Airport requirements including design standards and criteria, safety plans, security requirements, and Airport Improvement Program funding eligibility and documentation
- c. Project Approach and Understanding. Provide information that demonstrates the understanding of the project and ability to provide the requested service. The project requires an understanding of the project design, phasing that will be required during execution (one or two fiscal years, operational limitations, etc.), and site requirements to include integration of all applicable state and federal codes, regulations, policies, and procedures. Design strategy/process should address data collection, owner coordination, user input, and the proposed schedule.
 - d. Past Performance on commercial apron expansion or reconstruction projects. Consultant shall possess experience with designing all aspects of project including pavement geometrics, structural design, high-mast or other types of exterior lighting, and other aircraft support infrastructure as desired by the Airport or airlines. Any experience with contract administration (CA) or construction inspection (CI) of airfield pavement projects in the last five (5) years should be highlighted. Though CA and CI services are not being requested as part of the scope, experience in these areas will help in design as well as developing contract documents. Provide a listing of completed apron design or apron construction projects at other commercial airports in the last five (5) years as the lead consulting firm. Provided, however, if through no fault or neglect of the Consultant, the services to be provided hereunder have not been completed within the schedule identified in the Notice to Proceed, the Consultant's compensation shall be equitably adjusted, with respect to those services that have not yet been performed, to reflect the incremental increase in costs experienced by Consultant.

4.4. Should the Consultant fail to commence, provide, perform or complete any of the services to be provided hereunder in a timely and reasonable manner, in addition to any other rights or remedies available to the County hereunder, the County at its sole discretion and option may withhold any and all payments due and owing to the Consultant until such time as the Consultant resumes performance of its obligations hereunder in such a manner so as to reasonably establish to the County's satisfaction that the Consultant's performance is or will shortly be back on schedule.

ARTICLE FIVE COMPENSATION

5.1. Compensation and the manner of payment of such compensation by the County for services rendered hereunder by Consultant shall be as prescribed in Schedule A, entitled "Basis of Compensation," and Exhibit "A" which are attached hereto and made a part hereof.

The Consultant shall notify the County's Representative in writing when 90% of the "not to exceed amount" has been reached.

5.3. Invoices received by the County from the Consultant pursuant to this Contract will be reviewed and approved in writing by the County's Representative, who shall indicate whether services have been rendered in conformity with the Contract, and then sent to the County's Office of Management and Budget for processing payment. All invoices shall contain a detailed breakdown of the services provided for which payment is being requested. Invoices shall be paid within thirty (30) days following the County Representative's approval, who shall process all payments in accordance with the Florida Prompt Payment Act or advise Consultant in writing of reasons for not processing same. In addition to detailed invoices, upon request of the County's Representative, Consultant will provide County with detailed periodic Status Reports on the project.

All requests for payment of "out-of-pocket" expenses eligible for reimbursement under the terms of this Contract shall include copies of paid receipts, invoices, or other documentation acceptable to the County's Representative. Such documentation shall be sufficient to establish that the expense was actually incurred and necessary in the performance of the Scope of Work described in this Contract.

5.5. In order for both parties herein to close their books and records, the Consultant will clearly state "final invoice" on the Consultant's final/last billing to the County for each Notice to Proceed. This final invoice shall also certify that all services provided by Consultant have been performed in accordance with the applicable Notice to Proceed and all charges and costs have been invoiced to the County. Because this account will thereupon be closed, any and other further charges not included on this final invoice are waived by the Consultant. Acceptance of final payment by Consultant shall constitute a waiver of all claims and liens against County for additional payment.

ARTICLE SIX WAIVER OF CLAIMS

6.1. Consultant's acceptance of final payment shall constitute a full waiver of any and all claims related to the obligation of payment by it against County arising out of this Contract or otherwise related to the Project, except those previously made in writing and identified by Consultant as unsettled at the time of the final payment. 7.1. Consultant warrants that Consultant has not employed or retained any company or person, other than a bona fide employee working solely for Consultant, to solicit or secure this Contract and that Consultant has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for Consultant, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Contract.

7.2. In accordance with provisions of Section 287.055(5)(a), Florida Statutes, the signature of this Contract by the Consultant shall also act as the execution of a truth in negotiation certificate certifying that the wage rates, overhead charges, and other costs used to determine the compensation provided for in this Contract are accurate, complete and current as of the date of the Contract and no higher than those charged the Consultant's most favored customer for the same or substantially similar service. Should the County determine that said rates and costs were significantly increased due to incomplete, noncurrent or inaccurate representation, then said rates and compensation provided for in this Contract shall be adjusted accordingly.

8.3. County shall have the right to terminate this Contract, in whole or in part, without cause upon seven (7) calendar days' written notice to Consultant. In the event of such termination for convenience, Consultant's recovery against County shall be limited to that portion of the fee earned through the date of termination, together with any retainage withheld and any costs reasonably incurred by Consultant that are directly attributable to the termination, but Consultant shall not be entitled to any other or further recovery against County, including, but not limited to, anticipated fees or profits on work not required to be performed.
