We are also part of the Earth Day Fort Walton Beach Committee, which we initiated at least 2 years ago.	1/9/2020 10:59 AM
13	My city borders on Choctawatchee Bay	1/8/2020 2:56 PM
14	Make water quality better. With everyone working together goals can be reached.	1/8/2020 2:08 PM
15	The Bream Fishermen Association are a citizen science organization which have been collected water quality samples in partnership with FDEP for 50 years. In the past, the BFA also collected WQ samples from small creeks and rivers emptying into the Choctawhatchee Bay System.	1/8/2020 12:20 PM
16	Watershed management	1/8/2020 12:04 PM
17	To prepare students for success in their future career paths (Academic Institution) To complete and disseminate research informing management decisions within the natural resource sciences (institute at academic institution).	1/8/2020 11:41 AM
18	Human health and the environment	1/8/2020 11:39 AM
19	engage citizens and others to resolve sources of water quality impairments in local waterways, protection of aquatic life, etc. We build coalitions of other groups and citizens to do this.	1/8/2020 11:31 AM
20	Support of military, veterans, and their families. Only peripherally intersects through quality of life.	1/2/2020 8:59 PM
21	I work for a Commercial bank. I am not sure how it would complement the work.	1/2/2020 10:59 AM
22	The mission of the CPYRWMA is to develop and execute plans and programs relating to water resource management for citizens within the watersheds to ensure water resources are wisely developed, properly used, and enhanced for present and future generations.	12/26/2019 9:24 AM
23	Policy and work efforts that could impact the watershed.	12/23/2019 9:40 AM
24	Manage and leverage Natural Resources for tourism.	12/23/2019 7:06 AM
25	To engage our private and public sector partners to provide unparalleled infrastructure, economic opportunity and excellence in critical services to enhance the quality of life for all residents and visitors. Preserving the natural resources enhances the quality of life for all of us.	12/22/2019 4:06 PM
26	Transitioning and translating SLR and SLR impact science into coastal decision-making. It will	12/20/2019 2:13 PM

## CBEC Capacity Building

	complement the outreach efforts, and the data of the researchers in the partnership can inform projects and efforts.	
27	To protect and restore water quality and natural resources in the Pensacola and Perdido Bays' watersheds through partnerships, using a scientifically-sound, community-based approach to enhance resilience.	12/19/2019 6:40 PM
28	Inspire Americans to protect wildlife for our children's future. Be a leader in conservation and environmental education. Our Gulf program seeks to ensure that funds from the DWH are invested in large scale ecological restoration, which includes establishing successful Estuary Programs in NWFL	12/19/2019 6:01 PM
29	stewardship of national marine resources	12/19/2019 4:28 PM
30	Private company/business. Need strong economy and clean water	12/19/2019 10:34 AM
31	To protect and preserve the coastal resources of Escambia County	12/19/2019 9:51 AM
32	Our mission is to recover federal trust species to the point they no longer need protection. In doing so, we work collaboratively with a variety of partners including federal and state agencies, universities, NGO's, and private companies.	12/19/2019 8:54 AM
33	Water Quality of Santa Rosa Sound is connected to Choctawhatchee watershed	12/19/2019 8:40 AM
34	Works in parallel with other Governmental organizations.	12/19/2019 8:39 AM
35	Geneva County Commission and Road and Bridge	12/19/2019 8:29 AM
36	The County's mission is to preserve and conserve our area's natural resources. While coordinating with other civic groups and agencies, the County is able to accomplish this mission.	12/19/2019 6:36 AM
37	Dewberry Engineers are working with Walton County on initiatives to restore the oyster reefs in Walton County with Commissioner Nick's office.	12/18/2019 11:41 PM
38	Research to improve conditions for people and the ecosystems we depend on	12/18/2019 8:28 PM
39	Represent the constituents of my community	12/18/2019 8:24 PM
40	Developing and implementing planning programs that balance economic development and growth with protecting the natural environment, cultural resources, and the overall quality of life for residents and visitors.	12/18/2019 5:29 PM
41	sell and service boats	12/18/2019 2:16 PM
42	Matching volunteer mentors with at-risk youth in one-on-one relationships, often academic improvement goals set including science.	12/18/2019 12:00 PM
43	public safety	12/18/2019 11:31 AM
44	To protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.	12/18/2019 11:07 AM
45	Chamber of Commerce	12/18/2019 9:03 AM
46	Our goal is to provide efficient, effective, and economical electrical redistribution, potable water, wastewater, and fire protection assistance for the citizens of Dothan. Our vision is to be the best electric, water, and wastewater utility in the Wiregrass area with regard to rates, customer service, reliability, and community involvement.	12/17/2019 8:38 AM
47	Commision on the Status of Women promotes and encourages and recognizes women in Okaloosa County.	12/16/2019 8:34 PM
48	Natural resources management of Eglin AFB, specifically soil and stream restoration within the watershed.	12/14/2019 9:07 AM
49	Retail, dining and entertainment sales for a shopping center. The health of our waterways has an effect on tourism and tourism is a major contributor to my company's industry.	12/13/2019 1:22 PM
50	We will serve Alabama by protecting and sustaining our forest resources using professionally applied stewardship principles and education. We will ensure Alabama's forests contribute to abundant timber and wildlife, clean air and water, and a healthy economy.	12/12/2019 3:28 PM
51	The mission of the Natural Resource Conservation Service (NRCS) is to provide national leadership in the conservation of soil, water, and related natural resources.	12/12/2019 2:27 PM
52	To gather rainfall data and monitor river levels in a ten county area in southeast Alabama. This data is used to help with flood control and erosion in our watershed.	12/12/2019 1:58 PM
53	Provide environmentally sustainable waterfront infrastructure within the watershed	12/12/2019 11:04 AM
54	Environmental Protection and Restoration. Complements other organizations with similar goals.	12/12/2019 8:19 AM
55	To Provide infrastructure and quality of life related services to residents and visitors of Okaloosa County.	12/12/2019 8:08 AM

## CBEC Capacity Building

56	To protect the waters of our rivers in southeast Alabama	12/11/2019 6:04 PM
57	Goal: provide advice and support to coastal science and management programs including monitoring strategy development; organizational assessments; goal-setting.	12/11/2019 3:00 PM
58	The University of Florida Extension Service provides research based information on a variety of natural resource topics including water quantity and quality. This complements other organizations working in the watershed by amplifying the overall research and education on the Bay and the issues it faces.	12/11/2019 2:45 PM
59	Protecting water quality and the ecological integrity of the Choctawhatchee River and its watershed for its residents and future occupants. It complements the work of organizations downstream in the Florida part of the basin as well as the Alabama Scenic River Trail organizations work to improve recreational access and opportunities.	12/11/2019 11:56 AM
60	Managing fish and wildlife resources for their long-term well-being and the benefit of people.	12/11/2019 11:33 AM
61	To manage and protect the watersheds in SE Alabama including the Choctawhatchee River watershed.	12/11/2019 10:33 AM
62	News Media, disseminating information relevant to communities and the conservation and agricultural fields within the watershed.	12/11/2019 9:14 AM
63	Munitions Development.	12/11/2019 8:48 AM
64	Build strong businesses	12/10/2019 10:15 PM
65	Build consensus and community support for projects. We can help with direction and focus on projects to move forward.	12/10/2019 5:41 PM
66	business membership--many of the members working in the Bay or watershed are members	12/10/2019 5:41 PM
67	USAF Test and Training	12/10/2019 5:03 PM
68	resource management, water quality monitoring, habitat restoration	12/10/2019 3:27 PM
69	Advocacy for protection of surface and ground water resources within the Choctawhatchee River Basin	12/10/2019 3:23 PM
70	Primary goal is to serve the citizens and visitors of Bay County	12/10/2019 1:40 PM
71	The mission of The Nature Conservancy is to conserve the lands and waters on which all life depends. Our vision is a world where the diversity of life thrives, and people act to conserve nature for its own sake and its ability to fulfill our needs and enrich our lives. We believe that the creation of the Choctawhatchee Bay Estuary Program will provide a solid foundation for all stakeholders including economic and environmental to work together to improve the health of the watersheds economy and environment.	12/10/2019 12:06 PM
72	Administration of a city government	12/10/2019 11:18 AM
73	NRCS is an agency committed to "helping people help the land"—our mission is to provide resources to farmers and landowners to aid them with conservation. Ensuring productive lands in harmony with a healthy environment is our priority.	12/10/2019 9:11 AM
74	clean water, navigational waters	12/10/2019 9:02 AM

### Q3 What is your job title or occupation?

Answered: 75 Skipped: 1

### Q11 Do you believe the water quality within the Choctawhatchee Bay and the Choctawhatchee River is improving or declining?

Answered: 74 Skipped: 2

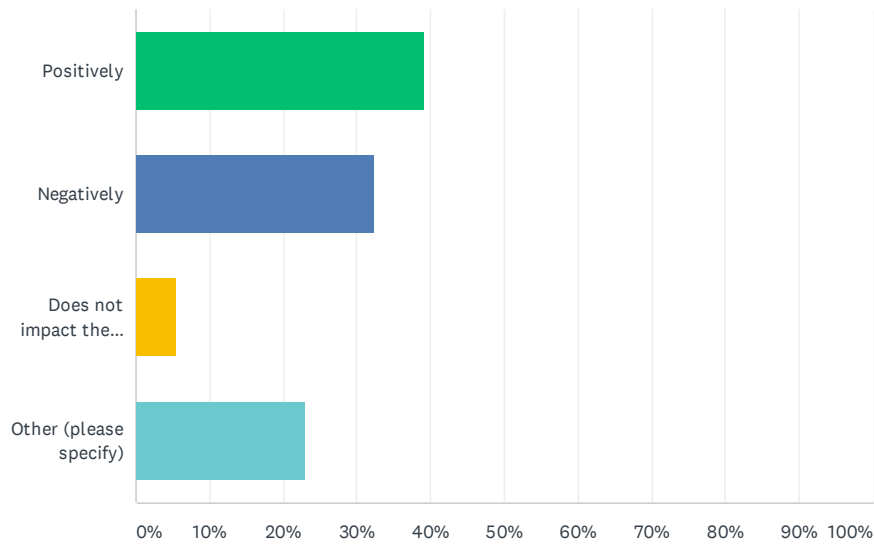

ANSWER CHOICES	RESPONSES
Improving	25.68% 19
Declining	47.30% 35
Other (please specify)	27.03% 20
<b>TOTAL</b>	<b>74</b>

#	OTHER (PLEASE SPECIFY)	DATE
1	Not sure.	1/9/2020 10:59 AM
2	I believe the upper portions of the bay are improving, but the lower areas closer to Destin appear to be degrading	1/8/2020 12:20 PM
3	Depends on the temporal analyses completed	1/8/2020 11:41 AM
4	improving in some places, declining in others (typically areas of new development)	1/8/2020 11:31 AM
5	don't know	12/26/2019 9:24 AM
6	More information is needed to determine either way. I do know some things are improving while others are not.	12/23/2019 7:06 AM
7	I don't know	12/19/2019 6:40 PM
8	Varies from areas to areas	12/19/2019 6:01 PM
9	Unsure	12/19/2019 4:28 PM
10	seems to be fairly consistent	12/19/2019 8:54 AM
11	I think it is temporal. Depending on the factors of that year (rain, growth, etc) it may be improving or declining.	12/19/2019 6:36 AM
12	Not sure	12/18/2019 8:28 PM
13	Unsure, need to address specific concerns	12/14/2019 9:07 AM
14	This it is maintaining, but needs to be improved.	12/12/2019 8:19 AM
15	don't know- not local	12/11/2019 3:00 PM
16	Declining in large measure due to population growth and climate change	12/11/2019 11:56 AM
17	N/A	12/11/2019 11:33 AM
18	I am not acquainted well enough with the water quality to know.	12/11/2019 9:14 AM
19	I have no idea	12/10/2019 5:41 PM
20	not much change, needs dredging badly	12/10/2019 9:02 AM

### Q12 How do you believe the Choctawhatchee Bay and Choctawhatchee River's water quality is impacting the quality of life of area residents?

Answered: 74 Skipped: 2

ANSWER CHOICES	RESPONSES	
Positively	39.19%	29
Negatively	32.43%	24
Does not impact the region's quality of life	5.41%	4
Other (please specify)	22.97%	17
<b>TOTAL</b>		<b>74</b>

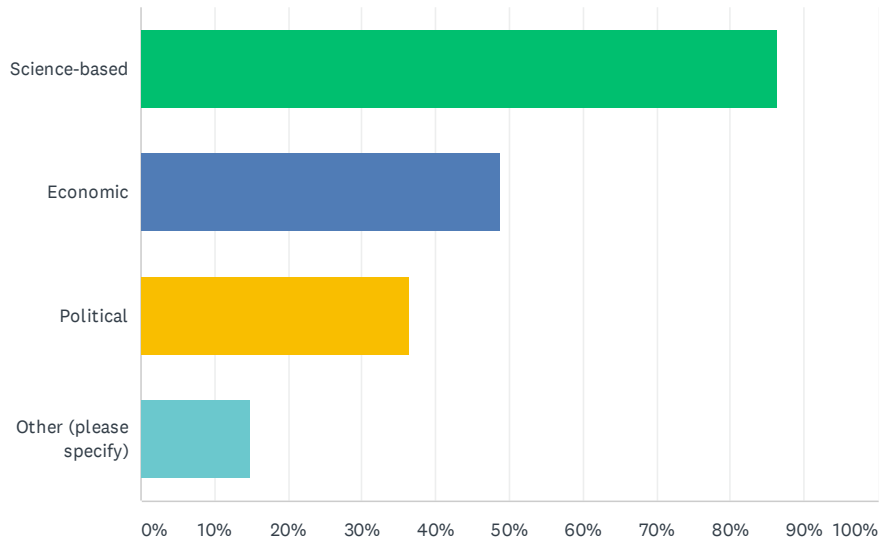

## CBEC Capacity Building

#	OTHER (PLEASE SPECIFY)	DATE
1	area residents are greatly affected by the water quality. If we allow the water quality to continue to decline then it will have a negative affect. Right now the water quality still has an over all positive affects on area residents.	1/13/2020 3:49 PM
2	complex	1/13/2020 2:32 PM
3	I don't believe the resident population is receiving the information, whereas the tourist population likely doesn't care.	1/8/2020 12:20 PM
4	Mixed- some feel positive and others negative. There are many folks who do not even consider.	1/8/2020 11:41 AM
5	don't know	12/26/2019 9:24 AM
6	Overall I believe it is positive. But, It certainly needs work!	12/23/2019 7:06 AM
7	I don't know	12/19/2019 6:40 PM
8	Better WQ would lead to better quality of life.	12/19/2019 6:01 PM
9	Unsure	12/19/2019 4:28 PM
10	The perception of good water quality by tourists and visitors is a positive impact. However the true water quality conditions may have larger impacts on local health, economy and recreation.	12/19/2019 9:51 AM
11	I think it is impacting the quality of life in ways that are as yet too small to be noticed on the day to day, yet are pervasive and will ultimately lead people to ask "what happened" when the cumulative effects of declining water quality, fisheries, and other issues become too large to no longer be invisible.	12/18/2019 5:29 PM
12	Unsure, assessment required	12/14/2019 9:07 AM
13	Hasnt been a substantial negative impact yet, but when it happens, it may be irreversible (at worse) or much more difficult to address (at best)	12/12/2019 11:04 AM
14	don't know	12/11/2019 3:00 PM
15	I do not work and play in the lower watershed/bay but I suspect that growth and sewage issues are impacting the quality of water activities AND climate change increasingly will - intensity if not number of storms, drought, both lower flows and flood events will increase due to climate change and sea level rise.	12/11/2019 11:56 AM
16	N/A	12/11/2019 11:33 AM
17	Again, I am not acquainted well enough to know.	12/11/2019 9:14 AM

### Q13 What type of solutions do you think are most effective in addressing issues facing the Choctawhatchee Bay and Choctawhatchee River Watershed? You may choose more than one solution type.

Answered: 74 Skipped: 2

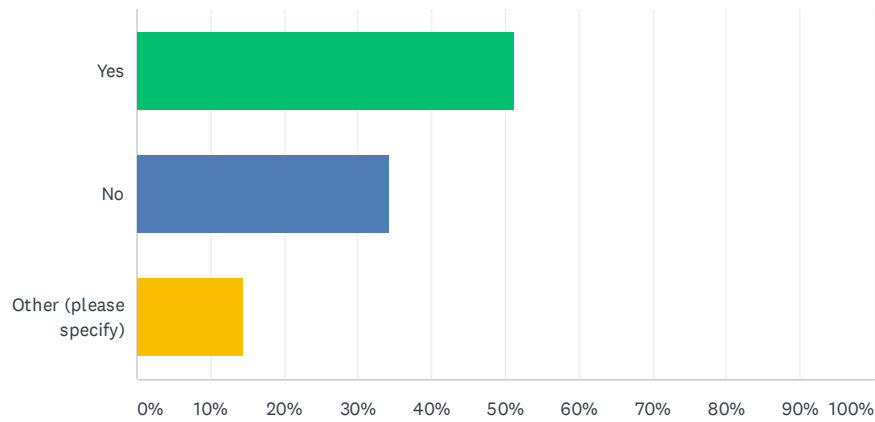

ANSWER CHOICES	RESPONSES
Science-based	86.49% 64
Economic	48.65% 36
Political	36.49% 27
Other (please specify)	14.86% 11
Total Respondents: 74	

#	OTHER (PLEASE SPECIFY)	DATE
1	Educational	1/13/2020 11:52 AM
2	Education about how these systems work and buffering of natural resources with natural lands.	1/8/2020 12:20 PM
3	Community education and actions	1/2/2020 8:59 PM
4	All 3 need to be considered, but they should be Ranked: 1. Science-based. 2. Economic. 3. Political	12/19/2019 6:01 PM
5	public outreach	12/19/2019 8:54 AM
6	all of the above	12/19/2019 6:36 AM
7	Pop culture - use mass media to keep the Bay on peoples' minds in a positive way so that they see everything through the lens of "how does what I'm doing impact the Bay?" It has to be fun; not preachy or accusatory.	12/18/2019 5:29 PM
8	All are important and must work together	12/12/2019 8:19 AM
9	If by political you mean regulation then yes - need bans on single use plastics, devices to capture plastics in tributary streams in urban areas, need to examine and implement sustainability measures, principally climate change mitigation and adaptation at all governmental levels and in businesses too.	12/11/2019 11:56 AM
10	Agricultural	12/11/2019 9:14 AM
11	Community based project development and implementation	12/10/2019 12:06 PM

## Q14 Does your organization currently participate in planning for the Choctawhatchee Bay and Choctawhatchee River Watershed?

Answered: 76 Skipped: 0

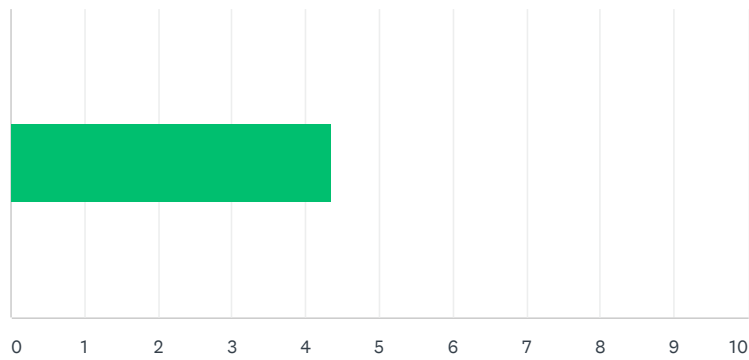

ANSWER CHOICES	RESPONSES
Yes	51.32% 39
No	34.21% 26
Other (please specify)	14.47% 11
<b>TOTAL</b>	<b>76</b>

#	OTHER (PLEASE SPECIFY)	DATE
1	indirectly	1/13/2020 2:32 PM
2	Only the Choctawhatchee watershed	1/9/2020 1:12 PM
3	We don't, but would like to.	1/9/2020 10:59 AM
4	We did provide lengthy comments on the WMD SWIM Plans when they were updated in 2017-18.	1/8/2020 12:20 PM
5	Provide data and data analyses when needed	1/8/2020 11:41 AM
6	We would like to participate more than we have in the past.	1/8/2020 11:39 AM
7	No, but I would like to	12/20/2019 2:13 PM
8	I'm not actively participating but supportive and engaging as I am able	12/19/2019 6:01 PM
9	Sort of, but not as much as it could due to resource (primarily staff) limitations).	12/18/2019 5:29 PM
10	Have attended meetings concerning BP funds use but not much more to date. Hope to start a sustainable cities initiative in Alabama portion of the basin and would like to discuss with lower watershed activists.	12/11/2019 11:56 AM
11	Minorly	12/10/2019 10:15 PM

### Q17 What role do you think the Choctawhatchee Bay Estuary Coalition should play? You may choose more than one role.

Answered: 76 Skipped: 0

**ANSWER CHOICES**

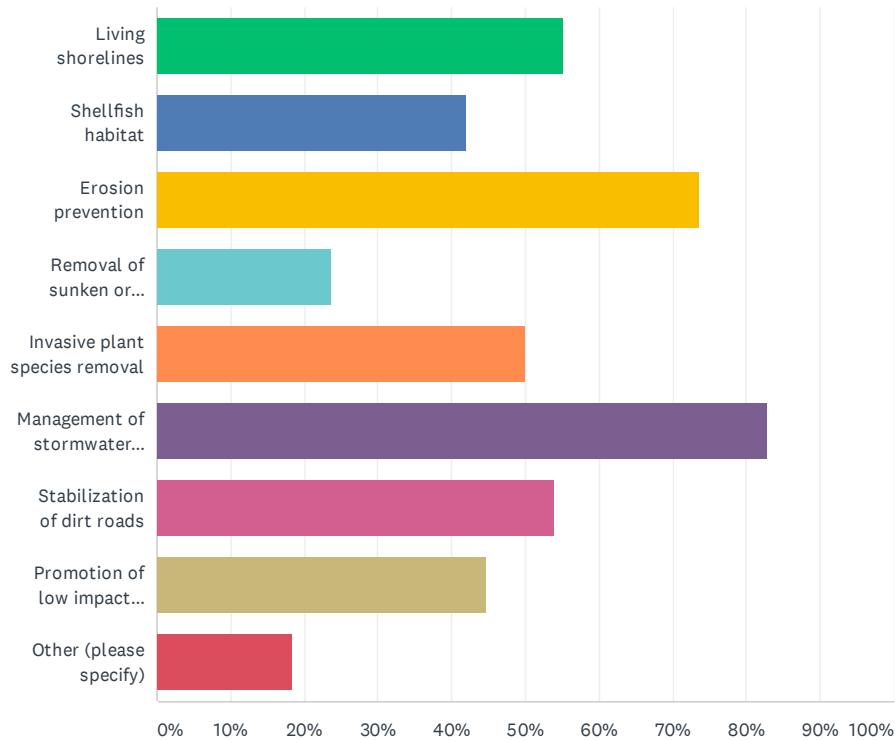

**RESPONSES**

Regional planning organization	61.84%	47
Clearinghouse for estuary information	55.26%	42
Advocate for the protection and restoration of the Choctawhatchee Bay & Choctawhatchee River	78.95%	60
Collaborative partner with other stakeholder groups	78.95%	60
Other (please specify)	15.79%	12
Total Respondents: 76		

#	OTHER (PLEASE SPECIFY)	DATE
1	I'm not familiar with the coalition so I'm not sure what role they should play.	1/13/2020 3:49 PM
2	Continue to support the good efforts of CBA and expand community participation in protecting this resource for the future.	1/8/2020 12:20 PM
3	Scientific research, data analyses, summary of science results to inform management practices/policies/decisions	1/8/2020 11:41 AM
4	The umbrella organization that takes the lead in bringing stakeholders together for collaboration and coordination.	1/8/2020 11:39 AM
5	All of the above while working closely with established programs like CBA.	12/23/2019 7:06 AM
6	#1 Advocate for protection and restoration of the bay	12/19/2019 6:01 PM
7	Become a positive, visible face of the estuary; things like a fun festival with an underlying theme of protecting the Bay, nature-based children's activities that focus on estuarine wildlife, etc.	12/18/2019 5:29 PM
8	Educate the public	12/12/2019 3:28 PM
9	All of the above are roles for the organization	12/12/2019 8:19 AM
10	Convener for collaborative partnership for the estuary	12/11/2019 3:00 PM
11	Provide leadership on biggest danger to the watershed - climate change.	12/11/2019 11:56 AM
12	YOU should be in charge and make things happen.	12/10/2019 5:41 PM

**Q18 What specific types of protection or restoration projects would you like to see initiated within the Choctawhatchee Bay and Choctawhatchee River Watershed? You may choose more than one project type.**

Answered: 76 Skipped: 0

**ANSWER CHOICES**

**RESPONSES**

Living shorelines	55.26%	42
Shellfish habitat	42.11%	32
Erosion prevention	73.68%	56
Removal of sunken or abandoned boats	23.68%	18
Invasive plant species removal	50.00%	38
Management of stormwater runoff	82.89%	63
Stabilization of dirt roads	53.95%	41
Promotion of low impact development (LID) programs	44.74%	34
Other (please specify)	18.42%	14
Total Respondents: 76		

## CBEC Capacity Building

#	OTHER (PLEASE SPECIFY)	DATE
1	Fisheries studies with improved management	1/13/2020 1:30 PM
2	implementation of green infrastructure, which includes LID, but goes a bit beyond it.	1/9/2020 10:59 AM
3	Shoreline retreat and softening through LSLs.	1/8/2020 12:20 PM
4	better patterns of land use--smart growth rather than sprawl	1/8/2020 11:31 AM
5	sea-level rise and future flooding preparedness	12/20/2019 2:13 PM
6	All of the above but need to set priorities	12/19/2019 6:01 PM
7	hydrologic restoration, policy advocacy	12/19/2019 4:28 PM
8	Either fee-simple acquisition of property or obtaining conservation easements over property in the watershed, in particular along the tributaries	12/18/2019 5:29 PM
9	Sustainable agricultural practices in upper watershed (Alabama)	12/14/2019 9:07 AM
10	Street Sweeping (within management of stormwater runoff)	12/12/2019 8:08 AM
11	would like to see an evaluation of the most effective types of projects to address each of the priorities before making a decision on types of projects	12/11/2019 3:00 PM
12	Sustainability programs targeting primarily climate change (mitigation and adaptation), building restrictions in areas that will be submerged over the 50 year future horizon.	12/11/2019 11:56 AM
13	no idea--let the experts decide.	12/10/2019 5:41 PM
14	septic to sewer conversion	12/10/2019 3:27 PM

**Q19** What other thoughts do you have on the current state of the Choctawhatchee Bay and the Choctawhatchee River?

Answered: 42 Skipped: 34

## CBEC Capacity Building

#	RESPONSES	DATE
1	none	1/14/2020 8:22 AM
2	Very little is being done at the city, county, state levels to help protect, restore	1/13/2020 1:30 PM
3	controled development and water use will be necessary	1/12/2020 3:07 AM
4	n/a	1/10/2020 10:58 PM
5	The state does not sufficiently fund efforts to improve the watershed.	1/9/2020 1:12 PM
6	I think we should be proactive in our actions and work to address the issues we have now and prepare for future issues that might come with increased population growth, land use, etc.	1/9/2020 10:59 AM
7	NA	1/8/2020 2:08 PM
8	As natural lands near waters become available, I would suggest purchasing them to keep them in a natural state. Our part of the panhandle does not have a Land Trust, but we are very much in need of one to keep these sensitive areas protected in their natural condition.	1/8/2020 12:20 PM
9	The estuary program will be critical in helping to protect and restore these resources for years to come.	1/8/2020 11:39 AM
10	The system is still degraded from its original state as a mostly freshwater system prior to permanent stabilization of East Pass. It seems to have not recovered from and adjusted fully to this dramatic change in salinity regime. It is not very bountiful compared to other panhandle water bodies.	1/8/2020 11:31 AM
11	I live on Don's Bayou and pay waterfront property taxes. It is very frustrating because the bottom is so polluted that I would not even stick my feet in it.	1/2/2020 10:59 AM
12	Glad there is an active awareness of the need for improvements.	12/23/2019 9:40 AM
13	There are a lot of issues that an EP COULD address. The Coalition needs to ID which of those to tackle first	12/19/2019 6:01 PM
14	None	12/19/2019 4:28 PM
15	Better inform general public. Promotes strategies designed to improve the watershed. Attend and actively participate with local watershed management authorities impacting the bay.	12/19/2019 1:32 PM
16	Tremendous resource. Opportunity through the estuary program to improve this valuable resource for generations	12/19/2019 10:34 AM
17	N/A	12/19/2019 9:51 AM
18	Compared to other local bays and estuaries, the Choctawhatchee Bay is in moderate shape. Future population growth and anthropogenic impacts are somewhat limited by state and federal land ownership coupled with upcoming restoration projects in the watershed, the conditions should persist or improve into the future. However, there is still work to be done to improve water quality and runoff from municipal areas.	12/19/2019 8:54 AM
19	Seagrass restoration projects	12/19/2019 8:40 AM
20	Always room to improve on water quality and all current efforts	12/19/2019 8:39 AM
21	Right now I feel like there is just a lot of speculation of the current health of the Choctawhatchee Bay system. I feel like we need more scientific analysis to pin-point the issues and target solutions to those issues.	12/19/2019 6:36 AM
22	Oyster Beds from Mid Bay Bridge East have all died in the past 3 years. There are no harvest areas left in areas where we have been getting them from for the past 15 years.	12/18/2019 11:41 PM
23	Covered already	12/18/2019 8:24 PM
24	I think it is a fairly productive system that is facing primarily development-related threats.	12/18/2019 5:29 PM
25	need to get the attention of the public. No one pays attention	12/18/2019 2:16 PM
26	It is one of the areas most important resources & needs to be protected	12/18/2019 11:31 AM
27	Analysis and planning through technical committees with communication through public outreach platforms and build multiple regional/local partnerships	12/14/2019 9:07 AM
28	none	12/12/2019 2:27 PM
29	None at this time	12/12/2019 1:58 PM
30	The estuary program should act proactively on the most beneficial programs now, not necessarily the "low hanging fruit"	12/12/2019 11:04 AM
31	Need to work with Alabama to improve runoff in upper reaches of watershed.	12/12/2019 8:19 AM
32	It is better than most bays, but we need to act to protect and improve.	12/12/2019 8:08 AM

## CBEC Capacity Building

33	Don't really know enough to have a opinion	12/11/2019 6:04 PM
34	Glad to see the CBEC moving forward- you have a great opportunity to move the needle on restoring and protecting the Bay and River.	12/11/2019 3:00 PM
35	Would like to see as much effort as possible to get young people (middle schoolers) on and in the water so as to increase knowledge, appreciation and respect for the resource.	12/11/2019 11:56 AM
36	Continuation of protection of these water bodies.	12/11/2019 10:33 AM
37	Important body of water to tourism and recreation and therefore economy.	12/10/2019 10:15 PM
38	I have heard it needs some help, thus the reason your organization was formed.	12/10/2019 5:41 PM
39	None	12/10/2019 3:23 PM
40	We are at a very exciting time where we will build off the excellent work done by local stakeholders such as CBA, Eglin, and government entities using science to identify the biggest challenges facing the watershed and prioritize projects that will have the greatest impact on addressing those issues.	12/10/2019 12:06 PM
41	Control development	12/10/2019 11:18 AM
42	dredging	12/10/2019 9:02 AM

**Q20 Do you have any questions for the Choctawhatchee Bay Estuary Coalition staff?**

Answered: 37 Skipped: 39

## CBEC Capacity Building
